2. SEGMENTS

An operating segment is a component of an entity that engages in business activities from which it may earn revenue and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker in order to effectively allocate Group resources and assess performance.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Managing Director and CEO in assessing performance and in determining the allocation of resources. The operating segments are identified by the Group based on consideration of the nature of the services provided as well as the geographical region. Discrete financial information about each of these operating businesses is reported to the Managing Director and CEO on a recurring basis.

The following changes to the segment structure have occurred during the period:

- Effective 1 July 2016, the Construction Materials & Cement and Building Products divisions combined to form a new Boral Australia division. Comparative segment information has been restated to align with the current structure.
- Following the completion of the acquisition of Headwaters Incorporated on 8 May 2017, Boral USA and Headwaters combined to form a new division named Boral North America which combined the existing US operations with the acquired Headwaters business.

The following summary describes the operations of the Group's reportable segments:

Boral Australia	- Construction Materials & Cement (comprising quarries, concrete, asphalt, transport, landfill, property, cement and concrete placing) and Building Products (comprising West Coast bricks, roofing and masonry, and timber products).
USG Boral	- 50/50 joint venture between USG Corporation and Boral Limited responsible for the manufacture and sale of Plasterboard and associated products.
Boral North America*	- Construction Materials (comprising fly ash, block and Denver construction materials), Building Products (comprising stone, roofing, light building products and windows), and Bricks (comprising US bricks up to 31 October 2016, and 50% share of Meridian Brick joint venture from 1 November 2016).
Discontinued Operations	- Boral CSR bricks joint venture.
Unallocated	- Non-trading operations and unallocated corporate costs.

* The results of the US bricks operations for the current year up to the date of formation of the Meridian Brick joint venture and prior year comparative periods are shown as part of "Boral North America" in the Segment note and "Discontinued Operations" in the Income Statement.

The major end use markets for Boral's products include residential and non-residential construction and the engineering and infrastructure markets.

Inter-segment pricing is determined on an arm's-length basis.

The Group has a large number of customers to which it provides products, with no single customer responsible for more than 10% of the Group's revenue.

Segment results, assets and liabilities includes items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

2017 Significant items (continued)

- (i) **Gain on disposal of Boral CSR bricks joint venture**
On 31 October 2016, the Group disposed of its 40% interest in the Boral CSR bricks joint venture. This resulted in a net gain of \$35.8 million. Refer to note 10 for further information.
- (ii) **Gain on disposal of US bricks**
During the period, the Group entered into an agreement with an affiliate of Forterra Inc. ("Forterra"), to combine its US bricks business, and Forterra's US and Canadian businesses into two 50/50 owned joint ventures. On disposal of its interest, Boral deconsolidated its existing US bricks business, and recognised an equity accounted investment in respect of its 50% shareholding in each of the US and Canadian entities, that operate as the Meridian Brick joint venture. This resulted in a net gain of \$13.2 million. Refer to note 10 for further information.
- (iii) **Meridian Brick joint venture integration costs**
Following formation of the Meridian Brick joint venture, restructuring and integration costs of \$8.4 million were incurred, reflecting plant rationalisation, integration of back office functions and an organisational restructure, in order to achieve targeted synergies and streamline the organisation for optimal performance.
- (iv) **Headwaters acquisition and integration costs**
Costs of \$63.2 million were incurred in relation to the acquisition of Headwaters Incorporated, related to various due diligence costs, success fees paid to advisers, and certain change in control payments to Headwaters executives.
Following the acquisition of Headwaters, \$11.7 million of costs have been incurred on the initial integration of the business. The costs to date predominantly relate to redundancies, employee incentives implemented by Headwaters and consultant fees supporting the integration. Additional costs are anticipated in 2018 and 2019.
- (v) **Impairment of West Coast bricks**
Deteriorating market conditions in Western Australia and our ongoing review of the West Coast bricks business has resulted in an impairment of assets during the period. A fair value less costs to sell methodology was used to determine the recoverable amount of the West Coast bricks business, leading to an impairment of \$20.4 million.
- (vi) **Adjustment to disposal of Thailand Construction Materials**
This relates to additional costs attributable to the finalisation of working capital adjustments from the sale of the Thailand Construction Materials' business in December 2012.

20 ACQUISITIONS (continued)

The table below represents the preliminary fair value of net identifiable assets acquired, based on the purchase price accounting exercise performed to date. This exercise is in progress, and further adjustments are expected as this exercise is finalised, with any revisions to be reflected as an adjustment to goodwill up to 12 months following the acquisition date of 8 May 2017.

The purchase price accounting exercise is ongoing due to the inherent complexity in determining the fair value of certain balances, particularly intangible assets, tax balances and provisions.

During the period from 8 May 2017 to 30 June 2017, Headwaters has contributed revenue of \$258.6 million and earnings before interest and tax of \$27.9 million to the Group's Income Statement. If this business acquisition had taken place at 1 July 2016, additional revenue of \$1,224.1 million and earnings before interest and tax of \$97.3 million would have been recorded in Boral's Income Statement.

Preliminary goodwill on acquisition of \$2,257.4 million represents the difference in consideration paid and identifiable fair value of the net assets acquired, and reflects the synergies and economics of scale expected from combining the operations of Boral and Headwaters, benefits from the diversification of market exposures in North America, and transforming the North America business to a more flexible, variable cost structure with lower capital intensity. The goodwill is not tax deductible.

Acquisition of 20% non-controlling interest in Entegra
